

## **Motion and TradeMaster to Host Free Live Webinar on Mobility Solutions for Pre-Plans and Fire Inspections**

*Attendees will hear how a local fire department has improved inspection completions by 25-40 percent*

**Austin, TX - August 5, 2009** — Motion Computing®, a leader in mobile computing and wireless communications, will be hosting two webinars focused on improving fire inspection processes and efficiencies. Motion® will present the webinars with TradeMaster, Inc., a leading provider of inspection and pre-plan software solutions optimized for tablet PCs, including MobileEyes™ fire and building inspection software.

The webinar, featuring a testimonial from Greg Gilchrist, Battalion Chief & Fire Marshal of Vestavia Hills Fire Department, will highlight how fire inspectors using software and Motion tablet PCs have significantly increased the quality and efficiency of inspections.

“Especially given the current economy, this solution was one of the best purchase decisions we have made, we can now do much more with less,” said Gilchrist, “we’re already completing 25-40 percent more inspections.”

The TradeMaster MobileEyes fire and building inspection software was designed to eliminate the waste and redundancy from traditionally paper-based inspection processes. The company chose to offer Motion tablet PCs as part of a complete mobility solution based on their light weight, durable design and industry-leading outdoor viewable screens.

“With tablets and MobileEyes software, inspectors have access to all of the location, occupancy, and code-related information they need in real time, which enables them to perform high quality inspections more quickly,” said Joe Krehel, President and CEO of TradeMaster, Inc. “We’re excited for attendees to hear first-hand how fire departments are leveraging the solution to significantly improve the way they manage fire inspections.”

### **Webinar Dates and Registration Information**

- Tuesday, August 11 at 11:00 AM CDT
- Thursday, August 13 at 1:00 PM CDT

All webinar attendees will be eligible for \$500 off a Motion Tablet PC powered by the Intel® Core™2 Duo processor, and 25 percent off their first MobileEyes software license. Visit <http://www.motioncomputing.com/promotions/webinars.asp> for more information or to register.
