## Customized Training Solutions for Tablet PCs

Motion Training Services designs and delivers customer training solutions that support the integration of the Motion Tablet PC and your applications from pilot phase through deployment.

### **Motion Training Benefits**

Customers who have employed Motion Tablet PC training have experienced the following benefits:

- **Successful pilot implementation** - early adopters quickly and efficiently integrate the unique features of the Motion Tablet PC into their professional environment.
- **Increased user acceptance via change management** – by collaborating with your support or IT organization and delivering a customized training solution during the Tablet PC deployment phase, Motion training effectively accelerates the acceptance of newly introduced technology.
- **Customer satisfaction** – properly trained Tablet PC users realize increased productivity, and ultimately a faster and higher return on investment.

“Motion Training Services provided our team members with not only detailed instructions on the tablet's functionality and features but also real-life examples of how to obtain optimal benefits from the use of the tablets in their daily workflow. The practical tips and suggestions have really enhanced our physicians' and clinicians' experiences with the tool and our electronic medical record system.”

## **Scheduling a Training Engagement**

You can either contact your Motion Solution Provider, Motion Sales Representative or [Training@MotionComputing.com](mailto:Training@MotionComputing.com) to schedule your training event.

“The Motion training was a great investment for our implementation. The instructors and program were well organized and developed so that all levels of students could gain maximum benefit. We were able to take away the laptops of 110 clinicians, have them spend 4 hours in class and leave on their new tablets, going immediately to a patient’s home. They were comfortable with the new technology and we experienced a high degree of success and satisfaction.”

**Senior Project Manager  
Home Health**

## **About Motion**

Motion Computing is a global leader in integrated mobile computing solutions, combining world-class products with services customized for the unique needs of target vertical markets. The company’s enhanced line of rugged tablet PCs, mobile point of care solutions and accessories are designed to increase mobile productivity while providing portability, security, power and versatility.

Motion Mobility Solutions offers a complete portfolio of products, services and support that helps ensure a successful mobile deployment for increased productivity, reducing project risk while delivering a more rapid return on investment.
